PROSPECTUS

OF THE

BELMONT TANNING

AND

Boot & Shoe Manuf'ng

Company, Limited.

CAPITAL $100,000—With power to increase. Divided into,

1000 Shares of $100 Each

Deposit 10 per cent.; Calls, not exceeding $10 per Share, at intervals of not less than 30 Days.

PROVISIONAL DIRECTORS:

R. FINLAYSON, E. GRANCINI,
J. H. TURNER, M. W. T. DRAKE,
JOHN SWITZER, T. L. STAHLSCHMIDT.
Solicitors—DRAKE & JACKSON.

BANKERS:
BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR the purpose of acquiring the property known as the Belmont Factory, situate on Esquimalt Harbor, and the business carried on therein, consisting of Tanning, and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of abor.

The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to nearly $30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom House for the year 1871, was about $100,000, representing a selling value, after adding duties, etc., of say $150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the output will be sufficient for the supply of the general demand for harness, mill belting, &c., in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent. has first been paid to the new shareholders.

Applications for shares may be made to the Secretary *pro tem.*, the Bank of British Columbia, or to Messrs. Drake & Jackson. ma21

FOR TWO YEARS PAST WE have offered to supply your leading Butchers with Meats from one to two cents per pound less than they have paid other parties. For certain reasons they have spurned our offers; these reasons have worked detrimental to your interests as well as ours. We think you will all be able to discern a marked difference in the prices which he will ask from those which you have had to pay for the past few years.

We wish to warn all persons against entering into any contract with other parties until they have learned the prices which Mr. Parker will ask.

Sanitary Precautions.

From all quarters, we observe by our exchanges, active preparations are going on under municipal authority, in anticipation of a visit from that dread enemy of mankind, the cholera. Although the press and the telegraph are very reticent as to the progress of the disease and the havoc it is making, enough, however, is made public to show that it is gradually spreading from place to place, carrying off its victims in greater or lesser numbers, and giving rise to the most gloomy apprehensions as to ultimate consequences. The months of August and September have, during past visitations of the cholera, been the most fatal, in which also it has spread with the greatest rapidity throughout the country, and it is quite possible such may be the case this year. However, the nature of the disease, its cure and prevention, are very much better understood now than they used to be, and hence by a careful observance of those laws which pertain to health, both dietetic and sanitary, the disease may be entirely avoided, or its fatal effects very materially mitigated. As the people of this coast are not subject to the same extremes of heat during the summer season as those of the Atlantic States and Eastern Provinces, there is the less probability of the cholera becoming epidemic amongst us; but that is no reason why we should neglect to take those precautionary measures that are being taken by other communities, lest it should make its appearance amongst us. That the disease is contagious, very few now entertain any doubt, and in view of the constant intercourse now going on between the Eastern States and California, should it assume an epidemic form in the East, it will be almost certain to make its presence felt in California and over the whole Pacific Coast. It therefore behooves our Municipal authorities to prepare themselves for whatever contingencies may arise. "An ounce of preventive is better than a pound of cure," and we trust our City Fathers will see the propriety, for the reasons we have stated, of being governed by this homely but truthful old adage. Victoria was never in a more uncleanly condition than it is at this present moment. The gutters are as foul as filth of all kinds can make them. If any one doubts it, let him just take a walk of an evening down Johnson street, and if his sense of smell is at all acute, he will be only too glad to get beyond the reach of the poisoned atmosphere which will there assail him. And what is true of Johnson street is also true of nearly all the principal streets in the city. The want of a proper system of drainage, is doubtless the primary cause of the offensive and unhealthy condition of our public thoroughfares; but it is quite possible for the City Council to abate the nuisance, even if they do not possess the means to cure it effectually. The gutters can at least be cleansed and deodorized, and a stop be put to the practice of hotel keepers, keepers of wash houses, etc., emptying their slops either directly or indirectly into them, there to form stagnant pools emitting poisonous odours, eminently calculated of themselves to breed disease, and, in case of cholera, to render it infinitely more deadly in its effects than it otherwise would be. The Council should, as a Board of Health, lose no time in instituting a thorough inspection not only into the sanitary condition of the highways and by ways of the city, but also into the condition of every yard, outhouse, cesspool, etc., within the thickly settled portions thereof, and insist upon the instant removal of everything of an offensive character, or that is in any degree calculated to breed disease or impair the general health of the community. We are told that in the Chinese quarter on Cormorant street, and also along the line of the ravine from Government to Store street, there is an accumulation of filth that is absolutely enough to endanger the safety of the whole city, irrespective altogether of what might happen in the event of cholera breaking out amongst us. Chinese and Indians are proverbially filthy in their habits, but while it is impracticable to remove them out of the way and thus get rid of them altogether, it is quite within the power of the Council to enforce a proper observance of the sanitary by-law, and that they should do with as little delay as possible. We presume all that would be necessary would be to detail a couple of policemen to make a proper inspection of the premises of these people, and not these alone, but other people as well, to give orders for the removal of all offensive rubbish and a thorough cleansing of every place that requires to be cleansed, and to see that those orders are implicitly obeyed. This should be done, cholera or no cholera, and if the Council only act upon these suggestions, they will deserve the thanks of all classes of this community.

Wednesday, July 23, 1873.

A CARICATURE.—We understand that there is in preparation by one of our cleverest artists, a caricature representing a certain individual of the *Colonist* staff imploring a member of the Cabinet for "Government pap" wherewith to nurse "the elephant" recently added to our contemporary's menagerie. The "people's government" refuse the prayer for certain reasons, one being that the Government itself has use for all the spare sugar it has to dispose of,—sugar for the black horse, sugar for the Attorney General's dog, sugar for the policeman's chickens, and sugar for the baby. In the background is a representative Brother Jonathan, listening to the conversation, and who pricks up his ears on hearing let fall from the lips of one of the party concerned, "Annexation." The conversation is supposed to run thus: "A.G.—Go away David, I despise a man who denies his country; you thanked God that you were not a British subject." David,—"Ah! that was when I thought we were going to have annexation." The picture will be on exhibition this morning; copies may be had at Shakespeare's photographic gallery. "Hunting for the Terminus," is on the easel, and will shortly be produced. This should form a good subject for a caricature.

PRESIDENT MACMAHON.—The following is from a Paris letter to a New York journal:—"President MacMahon's first reception was the most brilliant official festival since the fall of the Empire. The house was filled with army officers, all in full uniform, and literally everybody was present. Versailles has narrow resources in the way of conveyances and though the rain fell in torrents, everybody had to walk from the railway station to the President's house. There was not a Duke left in the Faubourg St. Germain; all the Orleans family were present. There were 800 persons in the salon. The Marshal President was in buoyant spirits. He wore the uniform of a Division General and on it the Grand Cordon of the Legion of Honor, and the military medal. Mme. de MacMahon was attired in blue and white, the blessed Virgin's colors, to place her husband's administration under Mary's protection.

SECOND FLYING SQUADRON.—A Halifax, N. S., dispatch of the 7th of this month announces the arrival at that port from Bermuda of the Narcissus, Tenedos, (formerly on the Esquimalt station) Immortalite, Endymion, and Aurolea, the ships of the British detached flying squadron. They made a handsome marine picture steaming up the harbor in line, and crowds of people on the wharves witnessed it. The fleet is under the command of Admiral F. A. Campbell. After remaining a week or ten days, they would proceed to St. John, N.F. The cruise of the squadron, which is composed of crack vessels, has been a most satisfactory one. They have had very little sickness, and only four deaths by casualty or disease have taken place.

SEAL.—Mr Pfeifer, of Store street, has a young seal which he has domesticated within a week. He took it outside the harbor, near Discovery Island; yesterday the amphibious creature might have been seen disporting itself off Leneveu's wharf, swimming to and from its owner's boat, at his beck and call. "Charlie," he calls it, and when Charlie was wanted, Charlie came and allowed himself to be lifted into the boat, patted on the head, again given his liberty in the water. The animal is a real pet of its species.

VICTORIA.—The steamer Cassie Telfair will sail from Victoria for Portland to-day. The U.S. steamer Saranac sailed from Victoria for Sitka on the 16th. Reports are current in Victoria that some six mutilated bodies from the George S. Wright had been found. The local press of that place are urging the necessity of sending a vessel to ascertain the facts in regard to it. There is much excitement in Victoria in regard to the discovery of rich gold bearing rock on Queen Charlotte Island.—*Olympia Courier, July 19.*

"LOD GODON."—The case of Lord Gordon, whose kidnapping by Western officers was reported by telegraph, excited much comment among the bankers on Wall and Broad streets. Recently efforts had been made to induce Lord Gordon to leave Fort Garry, Canada, and to come to the United States. Gordon is said to have defrauded Jay Gould of about $300,000, and it is to recover this money or a portion of it that the suits have been instituted against him.

FOR NEW WESTMINSTER.—The steamer Enterprise left here at 10 o'clock yesterday morning for New Westminster with a crowded passenger list, and a quantity of freight principally consisting of salmon barrels. Amongst about 40 passengers were Mr. and Mrs. Dewdney, Mrs. C. F. Green, Mrs. Oppenheimer, Miss Allard, Mr. Pettron, wife and family, Messrs. O'Reilly Mahood, Gibbs, Beeton, Kennedy, Irving, Pinder and Lequime.

FOR THE EAST COAST.—The steamer Douglas sailed at seven o'clock yesterday morning for Nanaimo and way ports, with H.M. mails, a number of passengers, and a quantity of freight. The following were on board: Mrs. Young, Miss Lindsay, Mrs. Fawcett and two children, Mrs. Antoine, Capt. Cooper, Messrs. Levi, Loat, Peck, Wing, Young, Clemitson, Hickling, and a dozen others.

WATER SUPPLY.—Mr. Snyder, of Lake district, is negotiating with the Water Commissioner for the value of his property, which will be affected by the construction of the Beaver lake dam, about to be commenced. The matter will be left to the arbitrament of the Hon. Arthur Bunster M.P.P., and Doctor James Trimble; the former will represent Mr. Snyder, the latter the Commissioner.

LAND SURVEYS.—Messrs. Dewdney and Mahood left yesterday morning for the Mainland to engage in surveys of the public lands of the Province. The former mentioned will survey the pastoral leases of the upper country. Mr. Mahood together with Mr. Turner of New Westminster, will take the lands of the Lower Fraser, and lay them out in six mile blocks for settlement.

HARD ON THE LOVERS.—Hymen was said to be enjoying a vacation in Nova Scotia. All marriage licenses in that Province must receive the signature of the Governor before the ceremony could be legally performed, and as Governor Howe is dead and his successor, Judge Johnson, was still in Europe, the lovers of Nova Scotia are not happy.

FOR THE SOUND.—The steamer North Pacific took away upwards of seventy-five passengers for the Sound, amongst whom were Mrs. Sprague, Mr. and Mrs. Morris, Mrs. Silverman, Mrs. Engles, Mrs. Bowman, Mr. and Mrs. Monastes, Messrs. Rice, Storey, French, Edgar, Simms, Leonard, Eckstein, Hutchinson, and Professor Ruman.

SIDEWALK OBSTRUCTION.—A petition is being signed, to be presented to the Corporation, setting forth the inconvenience to pedestrians consequent on the obstruction during the erection of the Federal buildings, on Government street.

"We are all Right with the Globe."

We find the following in a leading place in the *Globe* newspaper of Saturday last:—

"In reference to the use of my name by Sir Hugh Allan in the Pacific Railway correspondence published yesterday, I deem it due to my friends throughout the country to say that, in proposing to reserve $50,000 of the stock of the Pacific Railway Company for my subscription, the suggestion was the act of Sir Hugh Allan alone, and without authority from me or knowledge on my part. I have never in my life had the slightest interest, directly or indirectly, in any contract or work of any kind dependent on public aid; and the Pacific Railway contract was certainly the last enterprise I could under any circumstance, have been induced to touch.

"GEO. BROWN."

It is quite possible to believe every word Mr. Brown says in this short notification to his readers, and at the same time hold him guilty of having "made it all right" with Sir Hugh Allan. Of course the allotment of $50,000 of stock was made without Mr Brown's knowledge or authority. No one doubts that. Mr. Brown had been there before. Such devious ways are not new to him. But if he did not want to know that $50,000 was to be put to his credit, we can hardly doubt, in the face of Sir Hugh Allan's statement, that Sir Hugh had made it "all right with the *Globe*," and that in consequence of an understanding with Mr. Brown—it makes no difference whether it was George Brown or his brother. It won't do to assume the patriotic, dear friend of Bow Park! The really virtuous woman is never approached. In you Sir Hugh Allan well knew his man. And your paltry denial evading wholly the main question, is simply confirmatory proof of the truth of the allegation, "We are all right with the *Globe*."—*Toronto Mail, July 7.*

RICH GOODS.—We notice in the windows of London House; Government street, silks, millinery, dry goods, carpets, &c., worthy a stand in the best London or New York show windows. For excellence of quality or design they cannot be surpassed.

DEAD.—Lord Marjoribanks, previously Mr. Robertson, M.P., died on the 20th ult. less than a week after he had been made a Peer. He was eighty years old. His briefly held title becomes extinct for want of an heir.

FROM DEPARTURE BAY.—The Constitution towed down from Departure Bay by the steamer Isabel, arrived yesterday on her way to San Francisco.

INSANE.—Andrew McBroom was handed over on Monday to the authorities of the Lunatic Asylum, being of unsound mind and not under proper care or control.

Dr. Mary E. Walker has been appointed to a $900 clerkship in the United States Treasury Department.

The Water Question.

VICTORIA, MONDAY EVENING, July 21st.

EDITOR STANDARD.—It occurred to me as I went home this evening, and the first thing I heard was that the watermen had not come, the well was dry, and no water in the house, that the water question had not been discussed enough. That a public meeting had been held, resolutions passed, lengthy correspondence published in the papers, but no beneficial result to the public yet obtained. I do not pretend to decide who is right and who is wrong, between the Municipal Council and the Spring Ridge Water Co.; but all I know is that between the two contending parties, the public suffers as usual. It is a common saying that Corporations have no souls; and it is proved in this instance, as the Water Co. certainly did not consult the welfare of the community when they decided to shut the water off although they certainly gave sufficient warning. On the other side, the City Corporation, it seems, ignored altogether the necessity of the public at large, but only provided (or supposed they have done so) for the need of the Fire Department.

The city of Victoria has not, at any time, been supplied with any abundance of water, and I must certainly differ with the city fathers in their statement that the city is better supplied now than when the Water Co. was in operation. Unfortunately, in the discussion between the City Council and the Water Co., a good deal of animosity and personal feeling has been shown on both sides. If the Water Co. was bound by contract to supply water for the Fire Department free of charge, it was the duty of the Council to see that the company performed their contract, and if necessary, to take legal proceedings to enforce it. But instead of taking that course, the City Council, after leading the citizens to think that the Water Co. was bound to furnish water perpetually to the city, allowed the same company to cease the supply without taking any step to enforce their rights. It is clear by this that the City Councillors were not sure of their position, and that they would have entered into negotiations with the Water Co., is shown by the letter that his Worship the Mayor published in the *Colonist* last Sunday, in which it is stated that had the offer of arbitration been proposed in the usual way, some of the Councillors would have supported it. And here allow me to remark that the resolutions of the Council passed at the meeting of July 16th, shows that the question had not been properly considered; otherwise they would not have pronounced "illogical" a proposal that they did not understand.

The consequence of all this squabble is that the dear public have to pay more than double the price for water, and even then but indifferently supplied. We are approaching the driest season of the year; August, September and October will soon be upon us, and if the supply of water is not sufficient now, what will it be then? We have not heard anything more about the city water works; everything pertaining to them is kept a profound secret. All that is known at present is that a Water Commissioner has been appointed at a pretty good salary, which I hope he regularly receives; but I am afraid that that will not bring water into the empty barrels of private houses for this summer, and in order to attain that desirable object, I think it is time that the citizens in want of water should take the matter in hand, and put a stop by some means or other to the penury of water at twelve and sixteen buckets for one dollar. A SUFFERER.

A dream came o'er me as I lay
With head on pillow pressed,
Of such a splendid fitting coat
And Pants, and such a Vest.
Me thought that as I walked abroad
All eyes on me were cast,
But ah! my dream it passed away
'Twas far too bright to last.
But still before my eager gaze
Would come the dream of other days.

One day as I walked out alone,
My mind with sadness fraught
I wondered if in this good town
Such Clothing could be bought;
Just then a friend was passing bye
Who saw the sadness in my eye,
So kindly asked me, him to tell
What grief o'er me had cast a spell
I told him of the vision seen,
Said he, go buy of **David Green**.

A party of the rioters then charged on the Chinese washhouse, and were about to discourage Chinese emigration, when the boss pulled out a revolver and sent three bullets amongst the scoundrels. The courageous washman, defending himself and house, surprised them, and they scattered in every direction. No arrests were made, no officers being near the place.

The Wreck of the Geo. S. Wright.

EDITOR STANDARD:—My attention has been called to an article published in your paper several days since relative to the loss of the steamer Wright, wherein it is stated that I had an Indian in my employ who was cognizant of the murder of the crew or passengers who were aboard of the steamer when wrecked. To allay any excitement that may arise from such a rumor I will briefly state the facts which gave rise to such a report.

On my arrival here the trip previous to the present, I had a Bella Bella Indian on board of the sloop who was well acquainted with the Bella Coola Indians who were the first parties to find that portion of the wreck which floated ashore at or near Cape Caution. He, from their action, &c., had an idea that some of the passengers had landed and were murdered. He imparted his suspicion to me, and I employed him to endeavor to ferret out the evidence. In the meantime I called on the Governor stated the case, who promptly referred me to Hon. G. A. Walkem. Mr. Walkem immediately authorized me to offer any suitable reward for information that would lead to the apprehension and conviction of any person connected or implicated. I offered the Indian and also one of the Bella Coola tribe three hundred dollars if it could be proven. Since then they have endeavored to obtain information, but so far have failed, and in my opinion having travelled in a small boat over the same water that the Wright was have been in on the night of her loss, I have no idea that any ever escaped. She must have struck on some of the rocks off or near Cape Caution—at the time more than probable a heavy snow storm was raging and strong south-west wind—with a flood tide. The tide runs strong, and with the wind set her upstream the rocks. The water was so cold that no one could have lived in it an hour. Not one of her boats have ever been found, and they must have gone down with the ship. The bowsprit and the mainmast are ashore at Indian Cove, showing that she must have broken in two, as the mast was uninjured and could not have been taken out by human hands in a better condition than when first found on the beach. They were cast up at the highest spring tide mark, showing that they drifted in with the flood. So far, with the exception of a few doors and planks, this is all that has ever been seen of her.

Lately a barrel of oil was picked up in the Alaska tide, which was on the Wright.

There is a current that sets up from the Pacific Ocean, goes through Queen Charlotte's Sound, to the northward, similar to the Gulf Stream on the Atlantic side; consequently had the Wright been wrecked to the north of Cape Caution none of her stuff would have ever floated to the southward.

If there has been any murder committed on any passengers it will undoubtedly leak out, as I will be made acquainted with it. The Indians stated to have committed the deed have left for their home, and then should there be any truth in the report, it will not long be kept a secret. One of the Indians employed in hunting up the evidence will leave here in a few days; but my opinion is that they all found a watery grave.

W. H. WOODCOCK.

VICTORIA, July 21, 1873.

The Ship of State.

EDITOR STANDARD:—When a gallant ship properly manned, well found in provisions, and under a good captain is at sea, nothing probably in the world excels its management. Amid the roaring of the storm or sailing in the gentle trade winds, or in calms, all is methodical. Every man on board the ship knows his station and his duty. Should any one fail to be at his post, some disaster would certainly ensue; yet although the safety of the ship depends upon the individual attention of each seaman to his post they individually are not the ships motive power, wind excepted it is the commander, and when he gives the word of command, ready about, the cook who leaves his galley and fly to the fore-sheet is not the party who puts the ship upon the opposite tack; it is the gallant man who treads the quarter deck, that scans the position and who says, let go and haul.

How necessary is it that we should have a good commander upon the quarter deck of the Ship of State, that we may all pull in unison and with accord for the common good of the State. Have we a good captain in command of the Canadian ship? She is a fine boat built after the latest model; being a confederacy she is divided into parts; thus if one compartment should be injured, yet she would not sink under a good commander and helmsman, she would carry her crew through the most dangerous perils and keep them in safety. Some people say that we have that man at the wheel who must not be disturbed. But I fear that there is something wanting in him; let his actions speak for him; and in common justice award to him while on earth some foretaste of the rewards he accepts to enshrine his memory with heralter; a monument of marble or a simple tablet if he wishes. Let us say here lies the body of the man who at the head of his party being a majority on the floor of Parliament appealed to the country for simple justice in God's name, and in God's name let us outside of Parliament do him justice, if injustice is the charge against him.

Sir John Macdonald and his speech reported in the Montreal *Gazette*, May 7, 1873.

Extract No 1.—"That from the very conception of the idea up to the placing of the charter in the hands of the Pacific Railroad Company they were actuated and moved by a desire to promote the best interests of this Dominion."

Extract No 2.—"That in every action the Government had taken for the purpose of establishing a Canadian Pacific Railroad Company, they acted for the best interests of the country, and just as a man on a dark night keeps his eyes steadily fixed on the light before him, so had they their eyes on one thing, namely, to endeavor according to the instructions given them, according to the authority they had received from Parliament, according to the responsibilities thrown on them to act according to what in their judgments—the judgment might be wrong, because they were only human—would enable that great railway to be most economically constructed, maintained, worked and managed for the interests of Canada and Canadians, excluding every foreigner, alien or American from participating in it."

Such are the recognized views of the Canadian commander. I do not agree with him or the party from whom he receives his instruction, be they who they may. I speak in a political sense. I did once hope to see Canada a nation; she may be one, but never a great one equal to the United States of America. Look at the narrow and contracted views of this great political leader and compare his views with the wide and expensive welcome extended to capitalists and laborers of every lime and nation by the statesmen of that country. No enterprise is shut out from them, no investment looked against them. He might as well shut his doors against emigration, and forbid the poor emigrant from Faderland or sunny France who may be serving out his probation before he can take the oath of allegiance on a piece of land alongside the great Pacific Railroad, from cutting wood or even selling it to the company, although it is his adopted home. Yea even he may not invest his savings in the stock of the company, because he is not Canadian by birth. Love of country indeed is beautiful, but my love of it is to see it powerful as well as patriotic; our institutions aristocratic though they may be, will gain converts as fast as Republicanism, provided we welcome them and their capital into our modes of making money and getting rich.

I am amazed at the adulation and prostration of the intellect of Canada, when they bow down and tremble before this contracted image of power. Intelligence of very high order he certainly does possess; wit such as lawyers admire is at his command; learned in Parliamentary rules, he guides his followers to where he wishes; and so far has made tolerably good bargains at the expense of what we all hold very dear.

I will not charge him with cowardice on behalf of Canada; he tendered the United States with one of our Queen's children in the front of the battle, better blood for a tournament was not needed. Grant possibly saw that the Fenians were repulsed and his own battalions had been disbanded and sent to their homes, thus war was postponed. The celebrated Congress inaugurated by Sir Edward Thornton, brought about the arbitration of Geneva Sir John A. Macdonald was summoned there. The tangible and irrefutable damage done to Canada by the Fenian raids and the disturbance to trade was a matter of fact and figures, and as such were an offset against the Alabama claims. He stood firm at the frontier with 'chamberlains' rifles to meet the foe. Why did he not at the Congress insist upon indemnity without concession? Why surrender that which we all held so dear? the fisheries, what claim had the Americans to them; they had not laid waste and devastated the seaboard from Annapolis Royal to Quebec, and yet for a consideration, £2,500,000, say, or $12,500,000,000, he has submitted and allows Americans to enter into our harbors. I may say almost into our kitchens and take the salmon from off our table. Would Sir Edward Thornton have suggested to allow the Americans to enter the harbors of Great Britain for like purposes? Or will he at some future Congress permit France and Prussia to cast their nets in Portsmouth harbor? Canadians and British North Americans love their homes and firesides; they also revere the sod which covers the bones of their fathers. No fear but that they will defend them. He has surrendered that which every hand in the Dominion not palsied would have stricken a blow for. The island of San Juan being a part of Canada was also put up for sale, and has been swept away from us. Whether he consented to throw this island into the bargain or not does not appear. The statesmen of England are more to blame for this than Macdonald; that the men who had watched over the patrimony of our mother land with such vigilance for so many years, and whose seamen had surveyed the dark and stormy waters of Puget Sound, and stood watch and ward through many a dark and wintry night all for naught. The shades of Cook and Vancouver, Rosario and Dellaro, will haunt the geographers who have decided in favor of the Straits of Haro being the channel, between Vancouver Island and the Mainland. Let Kaiser William get of his merchants to charter a ship or ships other than those propelled by steam to enter Fuca Straits, and pass through Johnstone Straits, and ask them what channel his ship master would take. Or let him try any any insurance office and see if he can insure his ships through the Straits of Haro at the same rate as he can insure by the Straits of Rosario. The wording of the Ashburton Treaty was plain; it was from Point Roberts to the centre of the channel thence to the ocean. Not from San Juan to the centre of the channel. But I have travelled out of the channel of my proposition and got into the whirls and currents of the Straits of Haro myself. To sum up, as Parliament by a majority of 107 to 78, 31, thirty-one have exonerated Sir John and his party from bribery and corruption in granting the charter, the people of the Dominion are morally bound to acquiesce, although I think a great error was made in ever creating such a monopoly. They will govern the sales of the public lands, and must necessarily exercise a great influence at popular elections. That he has proved himself equal to his position in many respects none deny; yet McKenzie has met him at all points, and is evidently his equal if not his superior in many respects; especially upon public accounts and appropriations. Sir John has had able and willing men to assist him through so far with colossal energy; they have bestrode this continent on the north, and have saddled the Rocky Mountains. His engineers in compliance with the agreement will soon fasten the girths thereof with the iron rail of the great Pacific Railroad. But has justice been done to British Columbia; was it not agreed that this undertaking should be commenced in July of this year? What are the signs of the great public works that were to be done here? Marine Hospital, Custom House, Post Office and Dry Dock. Are they being built at all or upon a scale that would signify future importance? We see all that we have received, and each man can judge for himself.

Yours respectfully,

JAS. N. THAIN.

Imprisonment for Debt.

EDITOR STANDARD:—I was somewhat surprised, as were many others with whom I have been conversing on the subject of matter contained in your issue of yesterday, in the County Court proceedings—Hall vs. Bryant. The merits of the case I am not conversant with, but that portion of it wherein the plaintiff is committed to prison for non-payment of costs—some $30 or $40—for 20 days, seems to me most uncharitable, if legal. I should have thought the proper course would have been to levy by distress upon the goods and chattels, and if the party concerned be not possessed of sufficient over and above what the law allows his family, the defendant and Court should be satisfied with what he can spare from his daily earnings, over the amount necessary to provide the common wants of life. Suppose, for instance, the defendant and Court cast the plaintiff into prison for 20 days; his salary must necessarily stop; what is then to become of a large family? Is the object to make paupers of them during his incarceration for the paltry amount which he is unable to pay in a lump sum. If such is the law, which I very much doubt, I think it iniquitous, and should as soon as possible be repealed. I was under the impression that imprisonment for debt was one of those rude parts of legislation of the dark ages of the old world, and in lieu of any legislation on the subject in this colony, was at one time introduced here; but colonial legislation, adverse to this code, superceded the unwise course.

And whereas JOSEPH WILLIAM TRUTCH, as such Lieutenant-Governor in Council as aforesaid, under and by virtue of the powers and authorities conferred upon him in Council as aforesaid, by "The Municipality Act, 1872," and "The Municipality Act Amendment Act, 1873," and of all other powers and authorities him, as aforesaid, in that behalf enabling, hath ordered and proclaimed that all that piece of land known as the Districts of Cowichan North and Chemainus, and the inhabitants thereof, should, from and after the Eighteenth day of June, instant, be incorporated as a Municipality, under the said Act, and under the provisions hereinafter contained or referred to.

NOW KNOW YE, that by these presents, We do hereby order and proclaim that the said piece of land, and the inhabitants thereof, shall, from and after the date hereof, be incorporated as a Municipality, under the said Acts, and under the provisions hereinafter contained or referred to.

The said Municipality shall be called and known by the name and style of "The Corporation of the District of North Cowichan."

The said Municipality shall comprise all that piece or parcel of land known as the District of Cowichan North, and the District of Chemainus.

The Council shall consist of Seven Councillors, and the whole number present at each meeting thereof shall not be less than four.

The nomination for the first election of Councillors shall be on the 7th day of July, next, at 12 o'clock, noon, and the election, in case a poll shall be demanded, shall be on the 8th day of July, next, and shall continue for one day only, and the poll shall be kept open between the hours of 9 A. Ten days' notice of the time and place of nomination and holding of the poll shall be given by the said Returning Officer; such notice to be posted during that period on the outer door of the Court House, and the Landing places at Maple Bay and Chemainus.

Provided, always, that he shall not cast more than one vote in favor of any one Candidate, or vote on more than one occasion. And in the event of the number of votes being found to have been equal for any two or more Candidates, one or more of whom, but not all of such Candidates, being by the state of the poll entitled to be declared elected, the Returning Officer shall by a casting vote or votes, as the case may be, decide which of the Candidates for whom the votes may be equal shall be elected. Every person who shall have presented himself for nomination and who shall have been elected a Municipal Councillor, must serve, or in default pay a sum of two hundred and fifty dollars towards the Municipal Revenue; such sum, with costs, to be recoverable by the Clerk of the Municipal Council, summarily, before any Justice of the Peace aforesaid.

In case of the death, bankruptcy, insolvency, resignation, or permanent absence for the space of three consecutive calendar months from the Municipality of the Warden for the time being, or in case the Warden shall decline to accept office, the Municipal Councillor who shall be selected by the Municipal Council for that purpose, shall preside at the meetings of the Municipal Council, and shall have the same powers, duties, and privileges, and be subject to the same liabilities and responsibilities which the Warden would have had, and been subject to, if presiding, until the next day of election.

In case of the death, bankruptcy, insolvency, resignation or permanent absence from the Municipality for the space of three calendar months, of any one or more Councillors, or in case of a Municipal Councillor filling such vacancy in the office of Warden, the Warden shall by writing call on the Returning Officer to cause some duly qualified person to be elected in the stead of the vacating Councillor, by some day, not sooner than twenty-one days from the date of the said notice; and such election shall take place accordingly, and such Councillor shall act for the residue of the term for which such Councillor so dead, bankrupt, insolvent, absent, or resigned, would have held the same.

The Warden shall, within ten days from such vacancy, fix the day for the nomination and election of such new Municipal Councillor or Councillors, and the nomination and polling shall be held in manner aforesaid.

The validity of all contested elections shall be tried before any Judge of the Supreme Court, in manner following:—Any voter or candidate may present a petition to the said Supreme Court, praying that the election of any Municipal Councillor may be voided, on either of the following grounds:—by reason of bribery, intimidation, or undue influence; by reason of such Municipal Councillor not having obtained a majority of the votes of the duly qualified electors; by reason of such Municipal Councillor not possessing the requisite qualification or being under some disqualification as aforesaid.

The petitioner shall, in such case, give such security for costs as the Court shall direct.

The order of the Judge on the said petition shall be final and conclusive, and may contain all necessary directions for the holding new elections, or otherwise, as may be requisite.

Such Judge may, from time to time, make rules for regulating the trial of such petitions, and the matters and things connected therewith.

The first meeting of the Council shall be held on the 15th day of July, next, at the Court House Cowichan North, at 3 p. m.

The Municipal Council shall hold its ordinary meetings openly, and no person shall be excluded except for improper conduct. A special meeting may be open or closed, as in the opinion of the Municipal Council expressed by resolution in writing, the public interests require.

Previous to the introduction of any business, referring to the expenditure of any moneys, at any meeting of the Municipal Council, a notice in writing of any business proposed to be brought forward by any member, shall be publicly exhibited for twenty-four hours previously to such meetings, in some public place to be agreed upon by the Municipal Council.

Previous to any meeting of the Municipal Council, other than adjourned meetings, a notice of the time and place of such intended meeting shall be given, three days at least before such meeting, by fixing a copy of the said notice at the Municipal Council Chambers, and such notice shall be signed by the Warden, who shall have power to call a meeting of the Municipal Council as often as he shall think proper.

In case the Warden shall refuse or neglect to call a meeting within three days after a requisition for that purpose, signed by three members of the Municipal Council, at the least, shall have been presented to him it shall be lawful for the said three members to call a meeting of the Municipal Council, by giving such notice to be signed by the said three members, instead of the Warden, and stating therein the business proposed to be transacted at such meeting; and in every case a summons to attend the Municipal Council, specifying the business proposed to be transacted at such meeting, signed by the Warden, or the members, as the case may be, shall be left at the usual places of abode of every member of the Municipal Council, or at the premises in the Municipality where he resides, three clear days at least before such meeting, and no business shall be transacted at such meeting other than the business which is specified in the notice.

The Municipal Council may, out of their own body, from time to time, appoint such and so many Committees, and consisting of such members as they may think fit, for any purposes which, in the discretion of the Municipal Council, would be better regulated and managed by means of such Committees, but all proceedings of such Committees shall be subject to the approval of the Municipal Council.

Every By-Law shall be passed by the vote or resolution of at least three members of the Municipal Council, and at a meeting where at least four members of the Municipal Council shall be present.

A copy of every By-Law shall be transmitted to the Governor by the Clerk of the Municipal Council, within one month after the final passage of the same, signed by the said Clerk, and countersigned by the Warden or presiding Municipal Councillor, and sealed with the Corporate Seal.

At the first meeting of the Council, the Councillors shall elect one of their number to act as Chairman, and to be designated as Warden of North Cowichan, and his powers, privileges and duties, save as altered by, or inconsistent with, these Letters Patent, shall be the same as those prescribed by "The Municipality Act, 1872," and "The Municipality Act Amendment Act, 1873."

At such first meeting, or as soon thereafter as possible the Council may appoint a Clerk, Treasurer, Collector, and Assessor or such officers as they may deem necessary who shall hold office during the pleasure of the Council, and receive such remuneration as the Council may by By Law appoint.
